# Spielman's

*Sixty Years of Progress  
in Adrian*

## RETAIL PRICE LIST

**J. SPIELMAN & SON**  
NURSERYMEN - FLORISTS  
LANDSCAPE GARDENERS

Established 1881

Bent Oak Road at city limits

**ADRIAN - MICHIGAN**

# *Memories*

Spielman's was established in 1881 by Christ Spielman and John Spielman when they purchased the Randell Nursery of 10 acres. This was operated as Spielman Brothers, growers of Fruit Trees and Christmas Trees. The partnership was continued until 1905 when John Spielman purchased the interests of Christ Spielman in the nursery.

In 1916 the name was changed to J. Spielman & Son when Harold H. Spielman, son of John Spielman became interested in the company. Landscape Gardening then began to come to the front together with more ornamental stock. The business enjoyed a very happy growth during the next ten years. April 14, 1926, John Spielman died, after an illness of three days, of appendicitis. The business was then carried on by his wife, Rose Allabach Spielman and son Harold.

In 1928 more attention was given to Ornamental stock and Flowers. Greenhouses were constructed and a retail Florists Shop opened in connection with the nursery and landscape business. This business continued to grow even in the depression years.

August 4, 1936 Mrs. Spielman died and the business was taken over by Harold H. Spielman, who has continued as owner and general manager assisted by his sister, Leona Spielman Kay and a crew of able employees.

## THE PLANTING SEASON

Transplanting can be done successfully as soon as the frost is out of the ground in the spring until early in June. We usually begin to dig about the 20th of March. Fall planting from September.

## LOCATION

Our office, flower shop, greenhouses and nursery store houses are located on the Bent Oak Road, one mile north from the center of Adrian. Our POST OFFICE is ADRIAN. Telephone 110. 2 trunk lines.

## SHIPPING DIRECTIONS

In ordering nursery stock our customers are requested to state explicitly the mode of conveyance by which they wish their stock forwarded. We make shipments by express, freight, or motor truck. The price for all our material is at the nursery and does not include delivery. We can make shipment by motor truck at a moderate charge, provided the order is large enough to make a truckload. When losses occur by detention or mishandling, claim should at once be made on the transportation company by the consignee.

## CLEAN STOCK

A certificate of inspection accompanies every shipment.

## PLANT NAMES

We have endeavored to list our plants in accordance with the names as given in "Standardized Plant Names," which has been officially adopted by the American Association of Nurserymen.

If you have difficulty in finding in our price list any varieties you wish, write us and we will give you an immediate reply as to whether or not we can furnish them.

## GUARANTEE

All plant materials are warranted to be true to name, up to size specified and in good healthy condition when delivered, otherwise replacement will be made or original amount paid will be refunded.

We can not however, guarantee the growth of plants not planted by us. This is due to the perishability of such material and the fact that their care and up-keep is beyond our control.

Any plants however planted by our Landscape Department and given proper care by the owner are guaranteed to grow and thrive satisfactorily for one year from date of planting. Those failing to grow will be replaced the following season.

## LANDSCAPE SERVICE

We maintain a thoroughly equipped landscape department to handle any project, including designing, planting and care. Ask for prices on such work.

### TERMS

Our terms are cash, unless by special agreement. Charge accounts may be opened upon receipt of the names of two or more parties with whom the customer has credit relations, or by sending us bank or trade references, allowing us time for investigation. We can ship by express C. O. D. when desired, with charges for collection added to the bill—provided 20 per cent of the amount of the order accompanies the same as a guarantee.

## EVERGREEN TREES

Our Evergreens are all thrifty and heavily rooted, and have been several times transplanted and trimmed.

All Evergreens will be B. & B. (balled and burlapped), without extra charge.

## HARDY ROSES

	Each	Per 10
Strong field grown plants, 2 yrs. old-----	.65	5.00

If we are out of the variety ordered, we shall select the variety most closely resembling it UNLESS OTHERWISE ADVISED.

## HYBRID TEA ROSES

Ami Quniard—Dark velvety red.

Autumn—Copper and gold.

Briarcliff—Silvery pink.

Columbia—Beautiful rose-pink, perfectly formed blossoms.

Dame Edith Helen—A new variety with large blossoms of pure pink.

E. G. Hill—Scarlet.

General MacArthur—Large velvety-scarlet.

Gruss an Teplitz—Scarlet, shading to velvety crimson.

Joanna Hill—Creamy flesh.

Kaiserin Auguste Viktoria—Soft creamy-white.

Killarney Queen—Deep shell pink long pointed buds, improved Killarney.

Killarney White—Pure white, long pointed buds.

Los Angeles—Bright flame pink shaded with gold.

Mme. Butterfly—Large brilliant pink flowers suffused apricot and gold.

Ophelia—Salmon flesh, shaded with rose.

President Hoover—Reddish orange.

Radiance—Brilliant carmine-pink, with salmon-pink and yellow shadings.

Red Radiance—Similar to Radiance but color is deep red.

Souvenir de Claudius Pernet—A rose of a beautiful sunflower yellow, with brilliant green foliage and few thorns.

Talisman—Sensational new brilliantly colored rose of bright yellow, gold and pink.

Willowmere—Rich shrimp pink, shaded yellow in center and carmine pink at the edge of petals.

**HYBRID PERPETUAL ROSES**

The price is 65c each, \$5.00 per 10.

Generally speaking, the Hybrid Perpetual Roses are hardier than the Hybrid Tea Roses, but do not bloom over as long a period during the summer.

Frau Karl Druschki—Pure white.

General Jacqueminot—Bright scarlet crimson.

Harison Yellow—Yellow.

Mrs. John Laing—Large, soft pink; fragrant and steady bloom.

Paul Neyron—Deep rose colored flowers, very large.

Ulrich Brunner—Cherry crimson large.

**POLYANTHA ROSES**

The price is 65c each, \$5.00 per 10

Baby Rambler—Crimson.

Chatillon—Beautiful pink.

Else Polsen—Pink.

Ideal—Rich Red.

Gloria Mundi—Brick Red.

**CLIMBING ROSES AND WICHURAIANA HYBRIDS**

Strong, field-grown plants.

The price is 65c each, \$5.00 per 10

American Pillar—Rosy pink, single flowers.

Climbing American Beauty—Rich carmine blossoms.

Crimson Rambler—Red.

Dr. Van Fleet—Deep flesh pink; glossy foliage.

Dorothy Perkins—Shell pink.

Dorothy Perkins Red—See Excelsa.

Excelsa—Double crimson flowers, good foliage.

Gardenia—Bright yellow in bud, opening cream color.

Mary Wallace—Semi-double, bright clear rosepink, salmon at base of petals.

Paul's Scarlet Climber — Very desirable new rose of vivid scarlet.

Silver Moon—Semi-double, pure white flowers; glossy foliage.

Tausendschon—Large trusses pink blossoms.

White Dorothy Perkins—White.

**ROSA RUGOSA HYBRIDS**

65c each, \$5.00 per 10

Conradi Ferdinand Meyer—Fine large silvery pink blossoms.

F. J. Grootendorst—New bright crimson variety, hardy, and free bloomer.

Pink Grootendorst—A new variety similar to other but flowers are pink.

Rugosa—Rubra and Alba.

**HERBACEOUS DEPARTMENT**

On account of the increasing popularity and demand for Herbaceous Perennials, our acreage has been extended from year to year. We are adding new and choice plants to our collection each year.

About all the plants we grow are strong field-grown; the only exceptions being a few species which transplant better by being grown in pots, also some of the choice new varieties.

We invite you to visit our perennial department and see our new propagating greenhouses, our large stock of perennials, and our added facilities for handling orders.

# HARDY PERENNIALS

odorata Single Russian—Sweet Violet----	.25	2.00

**YUCCA**

*filamentosa—Common Yucca		
2 years -----	.50	4.00
3 years -----	.75	5.00

Varieties marked with an asterisk (\*) adapted to rock gardens.

### Hints For Proper Planting and After Cultivation

Most of the nursery stock, that fails to grow, is not properly planted or cared for after planting. Transplanting is a comparatively easy operation and should be successful in nearly all cases, but care must be given the plant to insure its growth. Water should be used once or twice a week in LIBERAL quantities and frequent loosening of the soil about the plant is essential. Plants received without soil on the roots should have their top trimmed back  $\frac{1}{4}$  to  $\frac{1}{3}$  of the new wood.

Plant out in good soil. Dig holes deep and wide enough to contain the roots without cramping. Pack the earth FIRMLY about the roots but do not fill the hole quite full, leaving a basin to hold water. Allow NO MANURE OR FERTILIZER to touch the roots. Put this on top of the ground as a mulch.

If these simple directions are followed, results will be satisfactory in practically all cases.

Evergreens should have their tops sprayed with water daily during hot weather during the first years planting.

---

## IN CONCLUSION

We have selected the leading varieties of stock, including a brief description of same, for this list. Varieties which we consider the best for this climate. If there are any items not listed here, which you prefer, send us your list. We may have it or we will try and get it for you. We will appreciate your order and assure you it will have our very best attention. Also the lowest prices consistent with QUALITY AND SERVICE.
